All

It has been a couple weeks since our conference call and I thought I would circle back to see if there has been any progress in getting the proper permit coverage in place for the Berkeley County Public Service Stormwater District.

In addition, I wanted to forward a few documents to show what the Stormwater District is doing as it builds out its program. I will send the complete annual report separately as it is too large to send with this email.

Please let me know if there has been any progress and if there is anything else we can do to move this forward.

Thanks,

Richard
